

LAHORE TRANSPORT COMPANY

Lahore Transport Company (LTC) intends to pre-qualify Private Parties /Organizations /OMCs /Investors for up-gradation of existing stations into “High Capacity CNG Filling System” for Urban Buses in Lahore as per the proposed locations. CNG may also be supplied to these locations by using Mother-Daughter supply system (Mobile Units) from any CNG station in Lahore. Due to current restrictions in issuance of CNG license by OGRA & SNGPL, this opportunity is limited to those parties that meet any of the following requirements:

1. Owners of the current CNG Stations desiring to upgrade their stations into a high capacity (HC-CNG) station.
2. Oil Marketing Companies (OMCs); holding valid OGRA & Explosives Licenses;
3. Other holders of Valid CNG License (OGRA and Explosives) whose outlets displaced due to roadway construction etc.

These up-graded stations will directly fill buses and may further supply CNG through mobile units at LTC Bus Depots. The successful party will be invited to enter into a tri-partite Agreement of up to three years with Bus operator and LTC; the latter would be acting as the signatory. Moreover, LTC /Bus operators will ensure a daily minimum bus volume range for CNG.

Initially, following locations have been identified for up gradation of existing CNG stations or supply of CNG with mobile units to other depots /locations.

S. #	Proposed Locations (Starting & Terminating Points of most of the Bus Routes)
1	Gajju Matta (Up-grade existing CNG Station near this depot or supply CNG to buses by establishing Mother-Daughter Supply system) Pak Foton /BusCo Depot (6 Km from Gajju Matta Drain towards Kasur on Ferozepur Road, Lahore)
2	Railway Station (Up-grade existing CNG Station near this depot or supply CNG to buses by establishing Mother-Daughter Supply system) LTC Bus Depot (Near Railway Station on Empress Road, Lahore)
3	Green Town (Up-grade existing CNG Station near this depot or supply CNG to buses by establishing Mother-Daughter Supply system) LTC Bus Depot (Madre-Millat Road near Hamdard Chowk, Lahore)
4	Thokar Niaz Baig (Up-grade existing CNG Station near this Location) Within 2 Kms from Flyover
5	Shahdra (Up-grade existing CNG Station near this Location) Within 2 Kms from Shahdra Chowk
6	Multan Road near Defence Chowk (Up-grade existing CNG Station near this Location)

Interested parties are invited to send their pre-qualification documents complete in all respects at the following address latest within 7 working days. The envelope must contain the title “**Pre-Qualification Notice for establishing/up gradation of High Capacity (HC-CNG) Filling Stations and Mother-Daughter Door Step Supply System for Urban Buses in Lahore**”. For additional information, a project information memorandum (PIM) may be downloaded from the LTC website (<http://www.ltc.gop.pk/Tenders.htm>)
